**Description**  
The camRade wetSuit EOS C100 Mark II is a black soft flexible waterproof rain cover that protects your camera against the elements. It also covers the viewfinder monitor, microphone and other accessories.

The rain cover is designed specifically for the Canon EOS C100 Mark II, but also can be used for the EOS C100. The near silent fabric minimalizes unwanted sound effects caused by wind and rain and reduces the chance of the camera overheating by allowing hot air to escape via the breathing material which the cover is made of.

The wetSuit has clear vinyl windows for visibility when adjusting the menu, audio input select level and other controls.

This item will be delivered to you in a waterproof pouch with zipper, which you can use for storing and transportation of the cover when not in active use.
